EPHRAIM MUNENE KITHINJI

INFORMATION MANAGEMENT / ICT PROFESSIONAL

Embakasi, Nairobi, Kenya | kithinjimephraim@gmail.com | +254 799 689 652

PROFILE

B.Sc. Information Technology graduate with hands-on experience in ICT support, systems troubleshooting, technical documentation, equipment inventory and information systems. Experienced supporting end users, maintaining accurate ICT records, diagnosing technical problems and producing equipment condition reports for management decision-making. Brings practical exposure to software development, databases, data analysis and information-management concepts through academic and personal projects. Strong analytical and problem-solving skills with a keen interest in database management, data analysis and information management.

RELEVANT EXPERIENCE

ICT Intern | June 2025 – July 2026

Horsebridge Network Systems East Africa · *Supervisor: Roy Kimathi*

- Supported installation, configuration, monitoring and troubleshooting of CCTV surveillance systems.
- Assisted with the deployment and maintenance of a unified security management system, supporting centralized security monitoring and system operations.
- Provided first-line end-user support, troubleshooting and repairing desktops, laptops, and network peripherals to restore functionality with minimal downtime.
- Diagnosed and resolved hardware and software compatibility issues across a range of client devices and configurations.
- Performed preventive maintenance on computing systems and network equipment to reduce recurring faults.
- Produced technical documentation of support activities and equipment status for internal reference and management decision-making.
- Maintained and tracked ICT equipment information, supporting accurate records and accountability.

ICT Intern | May 2024 – September 2024

National Cereals and Produce Board (NCPB) · *Supervisor: Moses Omulo*

- Delivered end-user technical support across departments, handling hardware faults, software installation, and system configuration requests.
- Supported installation and setup of software on staff workstations to enable day-to-day operations.
- Maintained accurate records of ICT support requests and resolutions, contributing to more efficient ticket handling.
- Carried out routine checks and preventive maintenance on ICT equipment to identify issues before they caused downtime.

TECHNICAL PROJECTS

BiasharaBox – Database-Driven Point-of-Sale & Inventory System

React, Node.js, Express.js, MongoDB, Mongoose

- Designed a database-driven system for sales, inventory, vendors, users and transaction information.
- Created structured data models and implemented CRUD operations, validation and REST APIs using MongoDB and Mongoose.
- Worked with business data including quantities, buying prices, selling prices, margins and transaction records.
- Developed inventory summaries and reporting functionality to support business decision-making.
- Troubleshot database connectivity, API and application integration issues during development.

Find a Technician – Service Booking & Information Management Application

Flutter, Dart, Firebase Authentication, Firebase Firestore

- Designed and implemented structured information storage for users, technicians, bookings and related records.
- Developed authentication, booking management, booking history and technician information features.
- Used Firebase Firestore for storing, retrieving and managing application data.
- Applied data validation and structured information-management principles throughout the application.

EDUCATION

Bachelor of Science, Information Technology – Meru University of Science and Technology - *October 2025*

Degree Reference: 25/8581

CERTIFICATIONS & TRAINING

- CompTIA Network+ (in progress)
- Hitachi Vantara: Presales Data Infrastructure, Presales Data Solutions, Presales Data Operations, Solution Selling (valid March 2026–2028)
- Cisco Get Connected
- IBM SkillsBuild – AI Fundamentals
- PLP Academy – Software Development
- Aberdare Institute – Computer Installation and Maintenance (86% credit)
- KESAP – SPSS/STATA
- IT Governance & Service Management foundations: COBIT 5, ISO/IEC 27001, ITIL, PRINCE2, PMBOK

CORE SKILLS

- Information and data management; database design and structured data handling
- Microsoft Excel; SPSS/STATA; data organization, analysis and reporting
- MongoDB, Mongoose, Firebase Firestore and SQL/database concepts
- JavaScript, React, Node.js, Express.js, Flutter/Dart and REST APIs
- Technical documentation, ticket handling and equipment condition reporting
- ICT equipment inventory tracking and record management
- Desktop, laptop and peripheral troubleshooting and repair
- Preventive maintenance and hardware/software compatibility diagnosis
- Network maintenance and basic connectivity troubleshooting
- Antivirus and endpoint security awareness (ISO/IEC 27001 grounding)
